

What is the Comprehensive Plan?

The City of Montrose is undertaking a community engagement process to develop the City of Montrose Comprehensive Plan (Plan). The purpose of the Plan is to establish a community vision, set goals, and identify opportunities for growth and development with a 20-year vision and 10-year focus. The Plan serves as the City's official guide for local decision-making on long-range planning, land use, development, policy, and capital improvements.

The Comprehensive Plan covers the primary areas of community planning and development, including land use and growth, transportation and mobility, housing, parks, trails and open space, recreation and tourism, and more. It provides a background of existing conditions, describes the vision, goals and objectives of the community, and includes an implementation plan.

Comprehensive Plan Topics:

-  Land Use & Growth
-  Transportation & Mobility
-  Housing
-  Economic Development
-  Public Services & Facilities
-  Downtown
-  Recreation & Tourism
-  Parks, Trails, & Open Space
-  Environment
-  Implementation

Get Involved!

Public involvement is critical to the success of a Comprehensive Plan. Public participation helps ensure that the final Plan reflects the community's vision, goals and priorities for the future. The City will offer numerous opportunities to get involved during the process including public meetings, workshops, interactive maps, online surveys and interviews.

You can find information on the Comprehensive Plan process, project updates, ways to get involved, and a link to the interactive map at CityofMontrose.org/CompPlan. Comments can also be sent via email. Follow us on Facebook, Twitter or YouTube.

The public engagement initiative will help form the community vision and goals for Montrose, and identify existing assets, challenges and opportunities for change. The community can help answer questions such as:

"Do we have good housing choices?"

"What opportunities will future generations have for living and working in Montrose?"

"What kind of transportation does our community need?"
